Capra **Products** are a small company dedicated to producing quality goat cheese & meat products.

We have been breeding and rearing goats on our farm on the edge of the Trough of Bowland for over 25yrs.

All our animals are raised naturally and no chemicals or pesticides are used on the pastures. What started as a hobby has grown and our herd is now in excess of 100 animals. We produce a diverse range of exclusive products which includes unique, prize winning, artisan cheeses produced in the farms dairy.

Capra Products are also one of the U.K.'s few producers of goat meat, which is naturally **low in fat**

,
low in cholesterol

& a very tasty alternative to pork, beef and lamb.

We are dedicated to the welfare of our animals and we believe this comes through in the quality of our products. [Learn more](#)
